

Computer Adventures at Stratford Preschool

Computer Adventures will be returning to Stratford Preschool this fall. Your child will explore the world of technology as they are taught practical computer literacy skills at a basic level. Students will create fun, age-appropriate projects that encompass word processing, spreadsheet, database, desktop publishing, and multimedia skills. Younger students will focus on projects that reinforce the learning of letters, shapes, and numbers.

Registration for this program will be held in September during the class visitation days. The cost of the program is \$445 for the year. Last year we had over 90 Stratford students participate in this enrichment program. If you have any questions, please feel free to call Eileen Byler at 456-9940. Don't miss out on this exciting opportunity for your child!
